## PROFILE

---

Motivated first-year Software Engineering student at GISMA University of Applied Sciences, with a strong interest in programming, problem-solving, and software development. Currently building a solid foundation in computer science through intensive coursework and practical, version-controlled repository development.

## EDUCATION

---

**Bachelor of Software Engineering**  
GISMA University of Applied Sciences

2026 – Present  
Berlin, Germany

## LANGUAGES

---

**Arabic**  
Mother tongue

Native Proficiency

**English**  
Academic instruction medium, advanced technical documentation and communication

Fluent

**French**  
Bilingual communication competency, advanced reading, writing, and speaking

Fluent

## ACTIVITIES AND INTERESTS

---

**Technical Labs & Engagement**  
GISMA University of Applied Sciences

2026 – Present

- Active participation in campus software engineering lab tracks and collaborative code hacking sessions.
- Continuous skill-building via personal technical tutorials, shell setups, and core algorithm optimization.
- Main interests focus on tech innovation trends, artificial intelligence models, and agile systems development.

## SKILLS

---

**Programming Languages:** Python, Java, C

**Web Technologies:** HTML5, CSS3

**Tools & Systems:** Git, GitHub, Linux Shell

**Core Competencies:** Fast Learning, Structural Adaptability, Agile Collaboration
