PROFILE

Motivated first-year Software Engineering student at GISMA University of Applied Sciences, with a strong interest in programming, problem-solving, and software development. Currently building a solid foundation in computer science through intensive coursework and practical, version-controlled repository development.

EDUCATION

Bachelor of Software Engineering
GISMA University of Applied Sciences

2026 – Present
Berlin, Germany

LANGUAGES

Arabic
Mother tongue

Native Proficiency

English
Academic instruction medium, advanced technical documentation and communication

Fluent

French
Bilingual communication competency, advanced reading, writing, and speaking

Fluent

ACTIVITIES AND INTERESTS

Technical Labs & Engagement
GISMA University of Applied Sciences

2026 – Present

- Active participation in campus software engineering lab tracks and collaborative code hacking sessions.
- Continuous skill-building via personal technical tutorials, shell setups, and core algorithm optimization.
- Main interests focus on tech innovation trends, artificial intelligence models, and agile systems development.

SKILLS

Programming Languages: Python, Java, C

Web Technologies: HTML5, CSS3

Tools & Systems: Git, GitHub, Linux Shell

Core Competencies: Fast Learning, Structural Adaptability, Agile Collaboration
